Reason	The sampling Rod used had a defect, which resulted in the sample inlet being partially closed when sampling the tank. This meant that the rod was only partially full upon reaching the bottom of the tanker, which resulted in a larger volume of the bottom layer of a heterogeneous load being sampled
Measures	Action taken: Purchase a new Sampling Rod, remove damaged rod from use. Ensure all Personnell involved are retrained on sampling technique paying particular attention to identification of abnormal samples

Italy	Wastes, classified as green list, had to go to China for recovery, through the harbour of Koper . After the checking of documents and the cargo, the customs found out that the waste was a mixture of different plastic materials. The Italian company began the procedure for returning of waste but, in the meanwhile, it went bankrupt. Italian state is planning the coming back of that waste.
Norway	Info concerning day and month of the incident is not available. 1) Countries invloved: Form NO to MY, via DE Type of waste: WEEE Amount: Not available Reason for the incident: Malaysia does not allow import of WEEE Alternative measures taken: Disposal in DE by transit authority 2) Countries involved: NO to BR Type of waste: Pre-treated LCD waste Amount -Not available Reason for the incident: No notification Alternative measures taken: Classification as green waste and send to Brazil 3) Countries involved: GB to NO Type of waste: Offshore waste Amount: Not available Reason for the incident: incorrect notification and report.
