Remarks:

Armenia	Information not available.
Czech Republic	Czech authorities discovered a number of illegal stores of waste in CZ in 2005 and 2006. It has been proven that the waste was illegally imported from DE. The shipments consisted of mixed plastic and textile. This waste was classified as residuals from mechanical treatment of municipal waste (sorting), Y46 according to Annex II to the Basel Convention. Import of such waste is either prohibited or subject to notification. Until now, the matter has not been fully settled. Some waste was re-imported to DE in cooperation with German competent authorities, some waste was disposed of in CZ and the rest remains stored until further negotiations.
